About Us

Fire causes destruction to life, property, and the environment and to minimize the damage or to rule out any chance of fire mishaps, premium quality fire fighting equipments are of crucial importance. We, Radiant Fire Protection Engineers Pvt. Ltd., have been serving worldwide clients with advanced fire fighting equipments for more than six decades now. Established in the year 1946, we are a pioneer manufacturer, exporter and supplier of fire fighting equipments such as Fire Protection Equipment and Fire Resistant Doors.

Also, we are an exporter of many items used in active fire protection systems. Our export markets include Middle East, South Asia Pacific and many overseas regions. We are also a leading service provider, engaged in Supply, Installation and Commissioning of fire fighting equipments, etc. as well as reliable consultation services to our esteemed clients in the form of Analysis and Evaluation of Fire Risks. We impart training to our clients' staff as to how to operate the fire protection systems.

We are a distinguished member of the National Fire Protection Association (NFPA), and have been satisfying the requirements of Local Fire Brigades, Tariff Advisory Committee, among several others.

Quality Assurance

Over the years, the firm has earned the trust of numerous clients by supplying premium quality fire fighting equipments. We use raw materials such as Galvanized Steels Sheets, Wooden Panels, Insulating Materials, Hardware, Adhesives, etc., of premium quality supplied by reliable and renowned vendors.

Our Quality Control team maintains stringent quality standards right from the selection of raw materials to the delivery of the final products. Our Fire Resistant Doors and Engineered Doors are known globally for their efficiency and precision.

Infrastructure

Radiant Fire Protection Engineers Pvt. Ltd. has a state of the art infrastructural set up which houses, among other things, an advanced manufacturing unit. The manufacturing unit is outfitted with the entire engineering set up.

The company's trained and skilled employees have a wide industry work experience. The upgradation of machines, along with employee development are done on a regular basis. Our team of marketing professionals and distributors helps us export and supply our products in the domestic and overseas markets with ease. Advanced warehousing facility enables us to store our products in a safe and effective manner, thus meeting any instant requirement of our clients.
